Member F. Hsieh introduced original measure and described expansion to include disability access, answered questions previously raised including access requirements for chartered clubs and clarification around terms Tagalog vs. Filipino; **Jonathan Lyons (FDR Democratic Club)** spoke in support and responded regarding club participation - clubs are the entry level point for all political involvement so it's critical that clubs have an obligation and understanding of access; **Member Kim** expressed concerned about offering interpretation without being able to provide services, suggested amending to just cover Cantonese, Mandarin, Tagalog and including "best

efforts” language for remaining languages, including ASL, question whether chartered clubs had the resources to provide ASL interpreters; **Member F. Hsieh** responded that it would be unlikely that an obscure language would be covered, she had also made commitment to raise the necessary funds and had referrals for interpreters to cover all language needs

Member T. Hsieh brought up concerns with cost for translating documents; **Member F. Hsieh** clarified that bylaws amendment only required interpretation (spoken) not translation (written) services; **Member T. Hsieh** proposed amendment to accessibility portion to state that chartered clubs and organizations “shall endeavor to provide access”, concerned with overly burdening clubs, would support encouraging rather than requiring; **Jonathan Lyens (FDR)** responded that lack of accessibility for events is discriminatory and exclusionary and it is very possible to find venues that are accessible, just asking for equality; **Member Ting** asked how interpretation was going to work - is there access to interpretation headsets; **Member F. Hsieh** responded that she had a group that was willing to rent equipment to us at low cost; **Member Campos** felt it was an important issue that should have been addressed a long time ago and the party should make a commitment to fund as a whole, motion to continue, call for committee to answer these outstanding questions; **Member Alysabeth** agreed to creating this bar for SFDCCC, would like committee to look into what costs would be, look into creating a support fund for clubs; **Member Yee** did not want to limit which languages are offered, wants to uncover needs and advocate for resources and services, and wanted the SFDCCC to make the commitment as a whole to raise the funds and put this in the budget; **Member Jung** was concerned with the use of private homes for events which often lack ADA accessibility; **Member Wiener** would like to separate out two issues, accessibility is easy to reach but language access is complex although it should be our goal; **Member Kim** suggested adding a threshold for required languages versus best effort so that we can deliver on promise, suggested best efforts for ASL interpreters; **Members Gupta** suggested that working group should consider a special fund instead of just general fund so that we can accept specific donations.

Working group members: Gupta, Campos, Alexander, Jung, F. Hsieh, Hene Kelly, and clubs

Amendments: Section 4: call out dialects, set thresholds for required languages; Section 5: consider “shall endeavor” or “best efforts” for ASL & reader requirements; create a special fund for access, discuss budgetary requirements

Hsieh** inquired about parliamentary procedure for discussing motions; **Member LaCroix** clarified that it was possible to have up to three (3) motions at a time, and that motions with no seconds do not become active; **Member T. Hsieh** spoke against Member Yee’s amendment and asked to not remove \$1M since it mirrors BOE resolution and should have goal to enforce at this amount regardless of what happens to resolution at Board of Supervisors, this will help bridge income inequality; **Member Dufty** spoke in support of Member Maxwell and her concerns and support of Citybuild, supported PLAs, urged support for Member Fewer’s amendment; **Member Baraka** requested confirmation that, in addition to wages, included insurance and other labor rights, queried for more details about threshold amount; **Member Hsieh** clarified that any public contract over \$1M would be subject to a project labor agreement, and include prevailing wage for all employees; **Member Alexander** clarified that the \$1M threshold is consistent with the SF Labor Council threshold, and captures smaller projects that are harder to get labor agreements on, does not support Member Yee’s amendment; **Member Farrell** thanked members for resolution and labor for support, is the sponsor for legislation at Board of Supervisors, the threshold is a compromise between higher and lower amounts; **Member Campos** supports PLAs and Member Fewer’s amendment, \$1M threshold is important to provide leverage and demonstrates our support for labor and will not support Member Yee’s amendment; **Member Norton** urged support for Members Campos and Farrell’s comments, spoke in support of \$1M threshold members; **Member Yee** reaffirmed his support for PLAs and clarified intention with amendment to match other efforts and withdrew amendment; **Member Fewer** reread proposed amendment.

Resolution in Support of SB 33--Prohibiting Financial Institutions from Engaging in Fraudulent Activity That Injures Consumers

Sponsors: *DeJesus, Gallotta*

WHEREAS as early as 2005, Wells Fargo Bank imposed on its employees sales quotas to open more client accounts and sell more add-on bank services that led to over two million deposit and credit card accounts opened without customer authorization or knowledge. In the wake of this scandal, the Consumer Financial Protection Bureau (CFPB) ordered Wells Fargo to pay \$185 million in penalties for its fraudulent activities. While it appears that Wells Fargo has been bruised by its public relations disaster, it appears that it has triumphed in court, successfully guarding against claims made by consumers injured by the bank. In individual consumer and class action suits against the bank, Wells Fargo has argued that their arbitration clause allowed them to send the dispute over fraudulent accounts into arbitration; and

WHEREAS, SB 33 is sponsored by the Consumer Attorneys of California, Consumer Federation of California, and State Treasurer John Chiang and is aimed at curbing Wells Fargo's litigation strategy. SB 33 would limit a financial institution from being able to assert, in a motion to compel arbitration, that a legitimate arbitration clause also covered a purported contractual relationship fraudulently created by the financial institution without the consumer's consent and created by unlawfully using the consumer's personal identifying information. SB 33 narrowly applies to motions to compel filed on or after January 1, 2018; and

WHEREAS, a New York Times investigation found that Wells Fargo targeted the most vulnerable victims: immigrants who spoke little English, older adults with memory problems, college students opening their 1st bank account, and even small business owners with several lines of credit. SB 33 is supported by a wide coalition of labor advocates, low-income rights organizations, and consumer interest groups—who believe that binding arbitration has allowed Wells Fargo to shield its activities from the public; therefore

BE IT RESOLVED, that the SFDCCC Support SB 33 and urge our legislative representatives to vote YES on SB 33; and

BE IT FURTHER RESOLVED, that the SFDCCC send a letter to our state representatives asking them to support SB 33.

Resolution in Support of Fair Employment Enforcement Act

Sponsor: *Maxwell*

WHEREAS, any form of discrimination robs people of their human dignity and often also of their financial stability and their health. When discrimination is allowed to ensue unchecked it also robs our communities of valuable opportunities to be better and to be stronger; and

WHEREAS, recently published research demonstrates that discrimination in hiring remains a persistent challenge for black workers. 17% of Black workers are unemployed as compared to 9% of white workers in California. While Black Americans are more educated than previous generations, they still earn only three quarters of what white workers earn. Lack of enforcement of anti-discrimination laws is a problem that is well documented. Even in California, where protections against employment and housing discrimination were established over 50 years ago, for many Californians enforcement is out of reach; and

WHEREAS, under current law, the California Fair Employment and Housing Act, is the principal California statute prohibiting employment discrimination in employment and housing. The Act is silent on the question of whether municipalities can participate in the enforcement of the Act, neither granting permission nor banning local enforcement activities. Local agencies are currently unable to address employment discrimination due to state preemption under FEHA. Removing state preemption expands protections and creates seamless enforcement for residents; and

NOW, THEREFORE, BE IT RESOLVED, that the San Francisco Democratic Central Committee (SFDCCC) goes on record supporting enforcement of workplace discrimination in our State Legislature by allowing a city, city and county government to enforce employment discrimination under the Fair Employment and Housing Act;

AND BE IT FURTHER RESOLVED that the SFDCCC will work with stakeholders and others to ensure that our Senate, Governor, and California State Legislators are firm in their commitment to workers' rights and support for local enforcement of workplace discrimination strengthening employment protections.

(Note: Steven Bradford SD 35 and the CDP African American Caucus will present this resolution at the August CDP Executive Board Meeting.)
