GOODLASS Ray  
THE GREENS

## What I am fighting for

- Stopping the mismanagement of water.
- Streamlined freight rail to assist agriculture and small business.
- Fix our over-crowded and poorly maintained schools for our students.
- Build better access for farmers' product domestic and overseas to increase productivity and profit.
- Bottom up financing and minimum service requirements for hospitals.
- Stopping the complacency of the Liberal National Party.
- More funding to fix the appalling state of local roads.
- Re-regulation of the electricity market to lower energy prices.
