CC: City Council

Mr. Manconi,

Section 2 of Schedule 23 to the Project Agreement for Stage 1 of the Ottawa Light Rail Transit Project sets out the method for determining the compensation to be paid on termination of the P3 agreement for city default or convenience.

I am requesting that City staff provide a detailed breakdown of the estimated cost to the City should we terminate the contract with RTG/RTM for convenience, or for any other avenue of termination that is currently available to the City through the Project Agreement. Further, I am requesting an estimate of the cost of a negotiated purchase of the controlling interest in RTG/RTM through purchase of equity.

Finally, I request that this information be made available at, or in advance of, this Thursday's meeting of the Transit Commission.

Sincerely,
Shawn Menard

Councillor/ Conseiller Shawn Menard
