Public Information Centre #5

LONDON'S
**BUS RAPID
TRANSIT**
SYSTEM

Public Information Centre
Be part of the ongoing planning for
London's Bus Rapid Transit System.

- Dec. 9 – Central Library
- Dec. 9 – Central Library
- Dec. 12 – Aeolian Hall
- Dec. 13 – Oakridge S.S.
- Dec. 13 – Ivey Spencer
- Dec. 14 – Central Library
- Dec. 14 – Four Points
- Jan. 24 – Central Library
- Jan. 24 – Central Library

Goals of PIC #5

- 1) Present concept design options along BRT corridors
- 2) Summarize the impacts and benefits of each design option
- 3) Seek public's feedback to aid in evaluation of options

Collect public input on the design options.

Tell us what is important to you.

Learn something new about BRT.

9 Key Focus Areas

- Richmond Street North
- Richmond Row
- Dundas Street
- Wellington Road South
- Wellington Curve
- Oxford St. West
- Downtown Couplet
- Turnarounds:
 - North
 - South
 - East
 - West

PIC #5: By the numbers

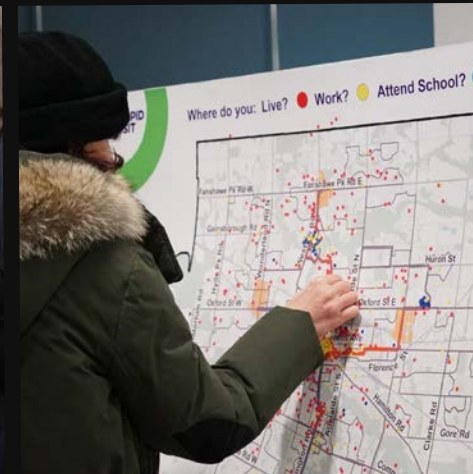

9 – sessions

28 – hours of consultation

750+ – attendees

305 – general comment sheets received

325 – Rapid Transit stop surveys received

What We Heard from Londoners

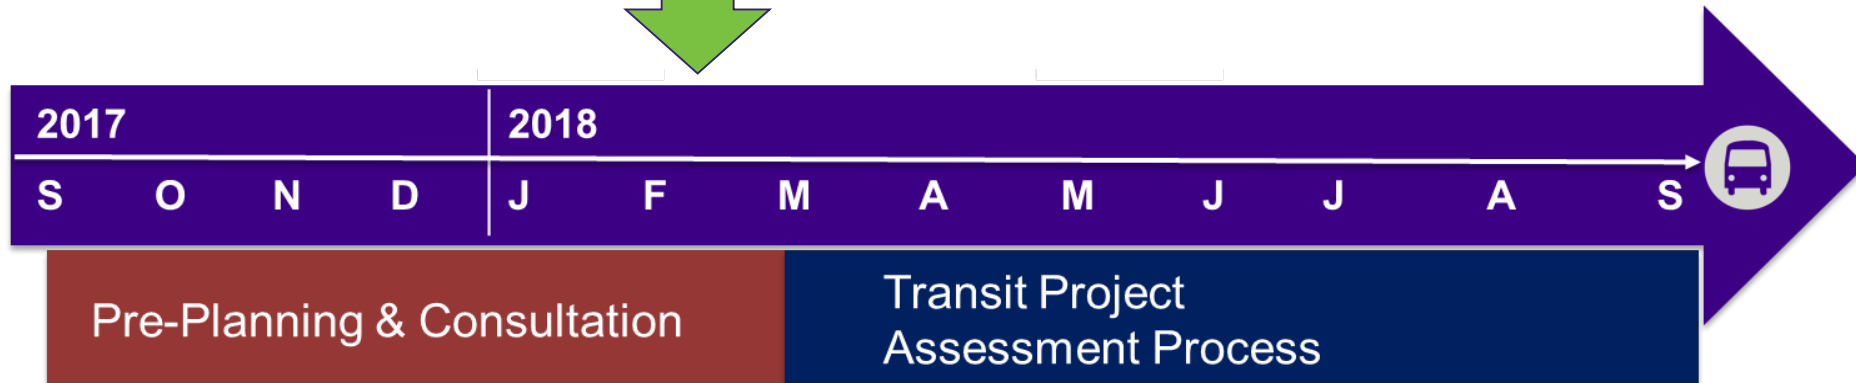

Recurring questions answered at the PIC:

- How local service will integrate with BRT to improve my local transit service citywide?
- How dedicated transit lanes will improve emergency services response times and improve snow removal
- How bike lanes will integrate with Rapid Transit?
- How property negotiations will occur?
- When construction will occur?
- How CPR crossing delays will be mitigated?
- How the project will provide no net loss to tree canopy and improve streetscape.

What's next for TPAP

- 
- Compile feedback from December and January engagement events.
 - Refine designs and evaluate options to identify technical preferred design
 - Present preferred Preliminary Design to public and stakeholders
 - Bring forward draft Environmental Project Report to Council
 - Initiate formal TPAP process with additional consultation opportunities.

We Are
Here

BRT Expert Panel

A review of the project was undertaken by an expert panel with representation from York Region Transit Corporation, Winnipeg Transit, Metrolinx and WSP USA.

- Full day work-shopping London's BRT design concepts and criteria to identify opportunities for improvements
- Panel shared their experience in resolving BRT-specific design and operational challenges
