Notes:

* Data as of September 14, 2020.

* All UI claims includes traditional UI, PEUC, Extended Benefits, and PUA claims.

* The number of claims filed does not equal the number of claimants because a claimant may have filed more than one claim.

¹ Number of claimants approved includes claimants paid (including offset payments) and active claims for which the claimant either never certified or stopped certifying at least 14 days before September 14. The claims for which an individual either never certified or stopped certifying are not considered pending. In order to receive benefits, claimants must file weekly certifications. There is no additional action for DOES for these approved claimants.

² Number of claimants denied includes claimants who were deemed monetarily ineligible, had withdrawn claims, and had disqualified claims.
