

SA Solar Owners to pay \$100 penalty!

SolarCitizens

SA Power Networks (the old ETSA) have applied to the regulator to introduce a special extra charge for solar owners to be connected to the grid. On average this will result in solar owners paying approx \$100 more than non-solar owners. Solar Citizens (a national non-profit advocate for solar owners) believes that this extra charge is unjustified and unfair. Join Solar Citizens' campaign to have this penalty disallowed.

To find out more and sign our petition go to bit.ly/stopsapn, or you can email Solar Citizens Adelaide Coordinator, Steve, at steve.fuller@solarcitizens.org.au.
