

2021 WASHINGTON STATE SOLAR SUMMIT COVID-19 PROTOCOLS

The Solar Summit takes the safety of its exhibitors, sponsors, partners, speakers, and attendees very seriously. As the situation with COVID-19 is changing daily, we are closely monitoring the response by healthcare and government officials so we can ensure the protection of all our stakeholders. We will continue to update our sponsors, exhibitors, and attendees as changes are made.

The Washington State Solar Summit will take place in-person at the Lynnwood Convention Center, with a virtual attendance option. In person attendees should be aware of the following policies:

Vaccinations are required

- Attendees of the in-person Washington State Solar Summit must be fully vaccinated. In general, people are considered fully vaccinated:
 - 2 weeks after their second dose in a 2-dose series, such as the Pfizer or Moderna vaccines, or
 - 2 weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine
- Upon arrival, staff will check for proof of vaccination. This can include your physical vaccine card or a photo of your vaccine card. If you have questions regarding proof of vaccination, please email hannah@socialenterprises.net.
- After verifying your vaccination status, staff will provide a wristband for easy identification. Please wear your wristband for the duration of the event.

Face coverings are required

- To further protect our attendees, and our larger community, face coverings will be required for the duration of the event. Face coverings must fully cover the mouth and nose.
- Exceptions to wearing face coverings are during meals, and while speakers are talking during their program segment.
- Covered outdoor patio space is available during the event for safe mask breaks.

Unable to attend in person? We are live streaming the full conference and virtual tickets [are on sale now!](#)

Do Not Attend

Individuals should not attend the event if you are COVID-positive, are exhibiting COVID symptoms (as defined by the CDC), or have been exposed, within 14 days prior to the event, to

someone who was COVID-positive or showed COVID symptoms. The Washington State Solar Summit will issue a refund, or convert to a virtual ticket, anyone fitting this criteria.

Additional Safety Measures

- The Lynnwood Convention Center is committed to providing a safe space for attendees, with enhanced cleaning protocols, PPE requirements, revised menu options, and air quality improvements.
- Meals will be served in self-contained, reusable bento containers to make eating as safe as possible while still being sustainable.
- The Washington State Solar Summit will have additional masks and hand sanitizer on-hand for attendees.

Let us know of any additional safety measures we can take to ensure a safe environment in October. Send as an email at hannah@socialenterprises.net with suggestions and/or recommendations.
