The Adams-Neilson Solar Farm in Lind, Washington features more than 81K solar panels working in harmony to produce enough energy to power over 4,000 average homes in Washington.

A crew of roughly 100 local contractors will work to complete the project by December 2018.

This project fits into the county’s comprehensive plan and will require no public water or sewer.

**28 MW DC**

Project size

- **100+** Local jobs created
- **4,000** Homes powered
