RFP: Avalon Village Streetlight Battery Replacement

Released December 6th 2018

Overview: The Avalon Village streetlight, installed in August 2014, is in need of a battery replacement. Performance indicates that the battery bank is at the end of its life span. Soulardarity is seeking a contractor to manage the replacement process.

Project scope:

- Test the electronics of the solar light system
- Provide recommendations for battery replacement options to Soulardarity and Avalon Village that compare cost, performance, and warranty
- Manage the purchase and delivery of batteries, and ensuring warranty documentation is provided to Soulardarity and Avalon Village
- Install the new battery bank in the solar light and test functionality
- Dispose of old battery bank sustainably and responsibly

Timeline: Target for project completion is April 1st, 2019.

To submit:

- Submit a 1 page summary of qualifications and a quote for services to director@soulardarity.com and shu@theavalonvillage.org by Friday January 4th
- Contractors wishing to donate their labor may do so as a tax-deductible gift. Please note if you are offering that in your submission.

Thank you!
