OUR HOMES ARE NOT INVESTMENT OPPORTUNITIES

GREEN PARTY SAYS RESIDENTS MUST HAVE A REAL SAY IN FUTURE OF THEIR HOMES

John Tyson, the Green Party candidate for Bermondsey and Old Southwark says: ‘The demolition of the Heygate Estate is the worst example of a council pushing out tenants and destroying communities, allowing absentee investors to benefit at the expense of renters. We need better housing solutions’. The Green Party would:
- abolish the cruel Bedroom Tax,
- set up a Renters Union,
- refurbish, insulate and improve homes instead of demolishing,
- work with communities to find solutions that work for them.

THE NHS: BASED ON NEED, NOT ABILITY TO PAY

THE CORE PRINCIPLES OF THE NHS ARE UNDER ATTACK FROM THE TORIES

Why is the government charging nurses to train, when we have a national shortage? Why is it paying private agencies millions for locum staff, instead of recruiting permanent staff and making sure their working life is sustainable? The Green Party believes in an NHS that looks after us all. Molly Scott Cato, MEP says: ‘A fair tax system goes to the heart of what it means to be a just and equitable society, and it’s necessary to fund our increasingly stretched NHS.’ 60% of people in a recent poll said they thought corporations should pay more tax. Do you agree?

STANDING UP FOR DEMOCRACY ON EUROPE

GREEN PARTY CALLS FOR A SECOND REFERENDUM - THIS TIME WITH THE FACTS

Southwark voted overwhelmingly to stay in the EU, with 72.3% of votes for Remain. The Green Party is making the case for a second referendum on the precise terms of the deal. We want voters to have an informed choice: sign up to the deal, or stay with what we have now and remain in the EU.

Would you buy a new phone without asking how much it’s going to cost? And yet, when it comes to the biggest decision for the future of our country, Theresa May has said that we will leave Europe whatever the outcome of her negotiations! It doesn’t make sense. Make sure your voice is heard.
WE NEED ACTION FROM THE MAYOR TO CLEAN UP OUR AIR

CHILDREN AND OLDER PEOPLE ARE MOST VULNERABLE TO DEADLY DIESEL

Southwark Greens put up pollution monitors

We’re all becoming aware of how air pollution damages our health. Southwark Green Party measured nitrogen dioxide levels across the borough. The results were shocking. On Tooley Street and Borough High Street, the levels were more than twice the EU legal limit. We have written to Southwark Council to call for immediate action including:
• Traffic-free areas round schools
• Safe cycle routes and bike parking
• Health information for residents

VOTE JOHN TYSON: A FRESH VOICE FOR SOUTHWARK

LOCAL CAMPAIGNER SAYS: MAKE POLITICS OPEN AND TRANSPARENT

John is a chartered accountant and lives in Elephant and Castle. He is active in the Friends of Harper Road and Elephant Amenity Network. John says: ‘I am a positive believer in a better and a fairer world. I believe in social responsibility and community. I wish to make politics more open and transparent, and ensure that politicians do the job they were elected to do. Our political system is not broken, but it needs people to come in and challenge it to be better.’

SOLIDARITY WITH ALL SOUTHWARK PEOPLE

REFERENDUM VOTE MUST NOT BE ALLOWED TO DIVIDE US

Many people in Southwark are linked by family, history or love to other parts of the world, whether they were born in London or have moved here. Greens recognise that the NHS, universities, schools, transport and construction – to name just a few – depend on the expertise and dedication of people from all over the world, including EU citizens. The Green Party defends the rights of all our fellow Londoners to participate as equals and feel at home in the city we share. Both Caroline Lucas, Green MP, and Jenny Jones, Green member of the House of Lords, sought to protect the rights of EU citizens living in the UK by putting amendments to the government’s bill to trigger Article 50.
