

**2015-2016 Financial Year
ANNUAL REPORT**

**Sprout Tasmania
ABN: 77 001 889 484**

Our mission & vision

Our History

Sustainable Production Research and Training Incorporated (trading as Sprout Tasmania) was established in December 2011 as a not-for-profit organisation that provided research and training services to small-sized food producers. Today, Sprout Tasmania has grown into an organisation managed by a volunteer board of nine, a General Manager and volunteer project leaders. Our mission is to support small food producers get their ideas in the ground, growing and to market.

SECTION 1**AN OVERVIEW OF SPROUT TASMANIA****ABOUT US**

Since its inception in 2011, Sprout Tasmania has evolved into an organisation that is recognised for its passion, support and ongoing education contribution to the Tasmanian food community.

During the last 12 months, we have held our fourth Cross Pollinate conference in August, managed the second cohort of producers through the Sprout Producers Program, launched and tested the Fork to Fork online marketplace, fundraised to provide cash grants for producers effected by Tasmania's devastating floods, and continued our advocacy of small Tasmanian food producers.

We recognise how important it is to constantly review and update Sprout's focus and direction in order to ensure we are supporting Tasmanian producers in ways that have the greatest impact. The volunteer board of Sprout undertook a lean thinking session with a Tasmanian change consultant. This incredible experience, combined with research undertaken by our General Manager of the many producers and hospitality/retail members of the Tasmanian food community, has resulted in an updated and simplified vision for Sprout and our members; to be **"a knowledgeable and supportive local food community"**.

OUR PEOPLE

Board members (9 committee member positions)

Name	Position	Dates acted (if not for whole year)
Tony Scherer	President	Whole year

SECTION 2**GOVERNANCE****STRUCTURE & MANAGEMENT**

Sprout Tasmania recently agreed to recruit for a new employee to fulfil the roll of General Manager of the organisation. This position will be crucial to the overall success of Sprout, in terms of overseeing and being responsible for all projects undertaken including running the Sprout Producer Program, Cross Pollinate events, Fork to Fork, advocacy for small Tasmanian food producers, sourcing external funding and managing our volunteer experience.

We want to acknowledge the incredible contribution from Erika and Nysha, our two Fork to Fork project leaders, who have moved on from Sprout. They had immense passion and commitment to making this project come fruition and we wish them much success in their endeavours into the future.

Sprout Tasmania has recently re-visited the presence of subcommittees as part of the organisation structure, after consolidating and streamlining the current projects, and employing a General Manager as part of the Sprout team.

It was agreed that the subcommittee structure was no longer necessary, and that the General Manager will ensure project progress reports are submitted to the Board members at the committee meetings. As part of the GM role, it may be a requirement to find and appoint a volunteer to take up a project leader role for any project that is large enough in scope and requirement for this kind of input.

CHAIRPERSON'S REPORT

Ian Locke

In the case of Sprout Tasmania, the primary role of the Chair is to facilitate board effectiveness, maintain a collaborative relationship with the CEO/GM and to ensure that the board acts appropriately and with due diligence in regards to finance matters and reporting, balancing strategy and risk, and ensures proper corporate governance is followed.

With social enterprises such as Sprout Tasmania, which rely on members who act in a voluntary capacity, it goes without saying, that Sprout would not exist were it not for the support and efforts of members, stakeholders, benefactors and the wider community of its followers.

Sprout Tasmania has grown a great deal; particularly in the last year or so. Establishing Fork to Fork, building on the success of the Sprout Producers Program, running the Cross Pollinate Conference, fundraising & sponsorship, advocacy & PR, and moving to a position to employ a General Manager.

The appointment of a permanent General Manager provides greater certainty for Sprout and begins a process to entrench intellectual capital and to be better at what we do well.

At the same time, there has been a transition of volunteers reflecting the need for more diverse and exciting skills, new business and career pursuits, shifting family and personal demands, and the need to embed organisational structure. Irrespective, Sprout Tasmania has always been fortunate to align volunteers with strategies and goals; a very appreciative thank you to all volunteers.

I am standing down as Chair and I wish my replacement every success as Sprout Tasmania continues to grow and be a leader in Tasmania and further afield.

A handwritten signature in black ink that reads "Ian Locke".

Ian Locke
Chair

8 Nov 2016

CEO'S REPORT

Alice Percy

When Tony and I started Sprout in December 2011 I never imagined we would be where we are now. The field day I attended last Sunday was so impactful. I felt a real sense of a Sprout community; with past Sprout Producers adjusting animals to current Sprout Producers and producers sharing their skills and experiences. It was beautiful to watch. They are so supportive of each other.

After 5 years of volunteering, I have decided to step down from the Sprout board. It has been an absolute pleasure working with our talented and dedicated team (past and present) and getting to know the inspirational Tasmanian producers. I know that Sprout is now in fantastic hands and that we have a clear direction.

I will continue to be involved with Sprout as an occasional volunteer and I look forward to watching Sprout grow.

A handwritten signature in black ink that reads "Alice Percy".

Dr Alice Percy
CEO & Co-founder

OUR OBJECTIVES AND ACTIVITIES

Activities

Sprout Tasmania is a not-for-profit organisation that educates, supports and empowers small Tasmanian producers. Sprout has an overall objective of GROWING GOOD – growing good food with care for our environment and our community.

Our definition of ‘small producer’ is any individual or group who are looking to operate (be that start up or scale back) or are already operating a farm with either stock or crops, on workable land of 150ha or less. They may currently hold off farm jobs full time, and be keen to switch the ratio to work more on farm as their business grows.

Sprout Producer Program

Over the period of 2015-2016 we have had our cohort of SPP2015 participants graduate, and the next six SPP participants for 2016 have been inducted and are underway with field days and completion of education units.

2015 SPP Graduates	2016 SPP Inductees
Bec Lynd – Big River Highland Beef	Justin Merriel – Develop the Green
Tanya Dalton – Drifting Farm	Christine Mann – Glendale Olives
Lee Adamson-Ringk – Killiecrankie Farm	Kirk Forrest & Cheryl Gamble – Forrest Flavours
Trish MacFarlane – Three Peaks Organics	Adele & Noel Amari –Burns Creek Farm
Darren & Bronty – Mount Arthur Garlic	Jo Smith – Primal Living
Lucy & Peter Headlam – Headlam Farm	Mark Massie & Deanne de Leeuw – Aurora Farm

Cross Pollinate 2016

This year’s conference was a roaring success with a cracker of a venue and extremely positive feedback from our conference delegates. The dinner this year was particularly special with the chef team at MONA working closely with both the Sprout team and our produce sponsors to create a fabulous menu and atmosphere.

From CP2015 to CP2016

The major areas for Sprout to address following key feedback from CP2015 were:

- Venue
- Catering
- Opportunities to connect

Looking back at the feedback from CP2015, the key areas for Sprout to focus this year were to create a more interactive conference, improve the catering and improve the suitability of the venue. Overwhelmingly, our delegates missed Frogmore Creek from 2014 and feedback demonstrated this was due to the importance of showcasing the concepts we explore through the conference – good food and drink!!

This year, we took that feedback on, conceived the theme “Connect and Grow” and secured the iconic MONA as a venue. MONA provided fabulous food and drinks in their catering and was kind enough to donate not just the venue but also the dinner (chefs, staff, food) with Sprout organising ingredients from producers within our network, many of whom donated produce for the event.

We lightened the agenda this year to create more time to connect – introducing afternoon tea, longer breaks and more time at networking drinks.

The three events that formed the Cross Pollinate event were received extremely well by all attendees. The field day drew over 30 attendees, while the day conference and long table dinner brought approximately 100 people at each event.

Each panel session gave attendees the opportunity to hear from a variety of speakers on a particular topic and it was inspiring to hear the discussions that flowed from this as everyone in the room became engaged and involved in the ideas.

Advocacy & Awareness

Sprout always take up the opportunity to advocate for small Tasmanian food producers and has been working with a range of local media outlets, including various ABC radio programs, The Mercury and Tas Country, to share key messages about the importance of supporting producers and buying locally grown foods. Here are some specific examples of small projects undertaken by the team:

- **Drysdale TAFE** – we have presented a few times to student apprentice chefs who are in the hospitality industry, to open their eyes as to the possibilities of finding niche, high quality products in Tasmania, to encourage them to ask questions at their workplace about where things come from. We are also hoping to assist Drysdale staff with taking the students out on-farm to see the process of growing or farming the produce that ends up in their kitchens. We aim to help keep them connected to that process.
- **Backpacker Tax** – Many of our members commented they have experienced a downturn in interest from casual picking staff, so Sprout was raising awareness of this via social media and discussions with local radio.
- **Blueberry Rust outbreak** – following and supporting one of our producers’ push to have this Tassie outbreak acknowledged publically and dealt with appropriately by the various government and biosecurity bodies.
- **Tasmania GMO Free** – put a petition together with 399 signatures and sent to Premier Will Hodgman asking them to keep GMO free at top of the agenda, and push for a Tasmanian specific meeting as part of the review of the moratorium.
- **MONA School Kitchen Garden Program** – Post connections made during Cross Pollinate 2016, we are hoping to assist the 24Carrot Garden team with inspiring young children to think about careers in agriculture, by connecting those participating schools with a producer for the term of their involvement.

Fork to Fork – online marketplace

Fork to Fork (www.forktofork.org.au) was launched in December 2015, with the pilot stage making produce available to businesses in the Southern Tasmanian region. Throughout the summer period, when produce was at its peak, there was much activity on the site as producers and businesses tested the system and got a feel for what it means to sell online.

Since this launch, the biggest thing we have learnt about F2F is that it demonstrates huge support for initiatives that create greater opportunity for more direct connections between producers and consumers. F2F has been in hibernation during the traditionally quieter winter season and Sprout has been using this as an opportunity to better understand our core customers, and their needs and capacity to utilise a service like F2F.

Based on the feedback we have received and from what our producers are telling us they need, we're fine tuning the concept and preparing to share a new, improved service in time for late spring and summer seasons.

TREASURER'S REPORT**Ian Locke**

Please find attached the financial report for the year ended 30-June-2016.

I wish to mention the following:

- Sprout continued to perform strongly in the FYE 30-June-2016, with trading year surplus of about \$33,700. The 2015 Conference was a great success as this event generated a cash surplus of about \$40,000
- Funds at bank at the completion of the FY16 were \$85,135.13.
- Whilst F2F was a relatively cash neutral activity for the year, contractor costs were of the order of \$56,000, an increase of \$45,000 over the previous year
- However, please note that this cash at bank balance includes the following commitments:
 - a. A \$42,600 carry over from a gifting made TQAA
 - b. A \$5,000 carry over for the SPP sponsorships

The efforts of the Board, the Subcommittees and Volunteers have been instrumental in building the financial capability and performance of Sprout, and thanks must go to them all.

The Board has continued to prudently and strategically improve the financial capacity, resources and strength of Sprout in the FY16 period and there is an expectation that Sprout will finish the 2017 financial year in a cash positive position.

**NOTES TO AND FORMING PART OF THE ACCOUNTS
FOR THE YEAR ENDED 30TH JUNE 2016**

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements are a special purpose financial report prepared in order to satisfy the financial reporting requirements of the Associations Incorporation Act (1964). The committee has determined that the association is not a reporting entity.

No Australian Accounting Standards or other mandatory professional reporting requirements have been applied in the preparation of this financial report.

The statements are prepared on a cash basis. They are based on historic costs and do not take into account changing money values, or except where specifically stated, current valuations of non-current assets

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of these financial statements.

Ian Locke
Treasurer

AUDITOR'S REPORT

Michael J Müller

**INDEPENDENT AUDITORS REPORT TO THE MEMBERS OF
SUSTAINABLE PRODUCTION RESEARCH AND TRAINING INC
(SPROUT TASMANIA)
Audit Report**

Report on the Financial Report

I have audited the accompanying special purpose financial report of Sprout Tasmania, being the Statement Members of the Committee, the Trading, Profit and Loss Account, the Balance Sheet and the Notes to the Financial Statements for the year ended 30June, 2016.

Board's Responsibility for the Financial Report

The Board of the association are responsible for the preparation and presentation of the Financial Report and the information contained therein. The Board have determined that the accounting policies used and described in Note 1 to the Financial Statements which form part of the Financial Report are appropriate to meet the requirements of the Association's constitution and are appropriate to meet the needs of the Members. The Board's responsibilities also include establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

My responsibility is to express an opinion on the financial report based on my audit. No opinion is expressed as to whether the accounting policies used, as described in Note 1, are appropriate to meet the needs of the members. I have conducted my audit in accordance with Australian Auditing Standards. These Auditing Standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

Auditor's Responsibility continued

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board, as well as evaluating the overall presentation of the financial report.

The Financial Report has been prepared for distribution to the Members for the purpose of fulfilling the Board's financial reporting requirements of the Association Incorporations Act. I disclaim any assumption of

responsibility for any reliance on this report or on the Financial Report to which it relates to any person other than the members, or for any purpose other than that for which it was prepared.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independence

In conducting my audit, I have complied with the independence requirements of the Australian professional ethical pronouncements.

Qualification

As is common for organisations of this type, it is not practicable for Sprout Tasmania to maintain an effective system of internal control over donations, fee income and other Association Inc fundraising activities until their initial entry in the accounting records. Accordingly, our audit was limited to amounts recorded in the financial accounts.

Auditor's Opinion

In my opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial report of Sprout Tasmania is properly drawn up in accordance with the Associations Incorporations Act, including:

- i) giving a true and fair view of the association's financial position as at 30 June, 2016 and of its performance for the year ended on that date in accordance with the accounting policies described in Note 1; and
- ii) complying with Accounting Standards in Australia to the extent described in Note 1 to the Financial Report.

Michael J Müller
Chartered Accountant

Dated at Hobart this 28th day of October, 2016.

SECTION 4**OUR OTHER IMPORTANT INFORMATION****ACKNOWLEDGMENTS & THANK YOU**

We would like to take this opportunity to thank all those who are involved in or who support Sprout and our endeavours.

Donors

We have some donors who wish to remain anonymous, and yet we would like to acknowledge their ongoing support of our organisation.

Volunteers

Thank you to all our volunteers, who give up their time to support the projects we undertake. You are all incredible and have such passion to see the producers in our state flourish, and we hope we are able to give you some fantastic experiences in return! Thank you.

Members

Every member of Sprout, be that Foodie, Seed or Harvest, helps to keep us current, focussed and true to what we are trying to achieve. We always welcome feedback and ideas, so never hesitate to drop our GM an email. Thank you.

HOW YOU CAN HELP

Become a member

Join our membership base at one of the following levels;

- Foodie - \$10pa
- Seed - \$25pa
- Harvest - \$275 pa

For more information on what benefits align with each level, jump onto [our website](#).

Volunteer your time

Join as a volunteer and we will help you to have the experience of a lifetime supporting Tasmanian producers to do what they do best. We like to try and offer our volunteers the chance to be involved in the projects that interest you, and to be a part of our family in whatever way suits you. So that we can get to know you more, and work out how you can be involved, visit [our website](#) to register your interest and a member of our team will be in touch.

Make a donation

Any funds we receive as part of our donation scheme go straight towards the Sprout Producer Program and other projects we undertake which help us to achieve our mission to educate, support and empower small food producers to put their ideas in the ground, growing and to market. [Click here](#) to make a donation via our website.

Become a corporate partner

Sprout is keen to talk to corporate organisations whose values and ethics align with that of Sprout, and who are keen to support small producers and the Tasmanian food industry on the whole. Email info@sprout.org.au to start that conversation and explore the opportunities.

Other ways you can help our cause

If you are in the hospitality industry and are keen to connect with more producers or have ideas about how Sprout could help you connect to those growing or farming the food, then touch base with us via email or phone (info@sprout.org.au or 0497 347 792). We would love to hear from you.

LOOKING TO THE FUTURE

What we aim to achieve

Sprout aims to **educate, support and empower small producers to get their ideas in the ground, growing and to market** by:

- offering mentoring and education to improve the health of their business;
- facilitating networking and connections between them and other members of the Tasmanian food community.

Sprout aims to focus over the next four years to ensure we are providing an incredible service to those producers who take part in the SPP, and to inform real results that are sustainable and have the greatest impact.

2017 – 2020 STRATEGIC GOALS

Goal 1	To build a membership base of over 500 by 2020 (currently 120)
Goal 2	To mentor and educate 12 producers each year (by 2020)
Goal 3	To build a supporter base of over 2,000 (by 2020, currently 1,200)
Goal 4	Engage with 120 supporters per year through events

We would like to grow our membership base modestly over the period, focussing on engaging with those members more and encouraging them to be involved in our vision of **“a knowledgeable and supportive local food community”**.

We see the opportunity to expand the Sprout Producer Program cohort size to 12 producers per year, ensuring that each cohort of six producers will still experience the close-knit networking support and mentoring that past SPP participants have valued so much.

We would like to engage with the general community as we have done in the past through the Cross Pollinate conference, yet on a more grass-roots level by hosting tailored events that facilitate discussions and connections between producers and their customers.
