## Eagle Ford Excellence Award for Environmental Stewardship

Environmental stewardship is a top priority for STEER and its members. As the oil and gas industry works to provide energy resources for our country, the **Eagle Ford Excellence Award for Environmental Stewardship** seeks to honor those who make it their obligation to preserve the environment in a responsible manner. The industry's commitment to reducing spills, reducing emissions, minimizing waste, and promoting water management and conservation are paramount.

Companies and contractors working in or with the oil and gas industry in the Eagle Ford Shale region that demonstrate the ways they make a positive contribution to the advancement of environmental considerations are eligible to enter this category.

### Successful entries will demonstrate elements of, but are not limited to, the following:

- Innovation in reducing environmental impact
- Environmental protection and awareness efforts
- Implementation of practices or use of technology benefitting the environment including the reduction of emissions
- Current, practical applications of the solution, or initiative, within the region
- Long-term, sustainable environmental benefits
- Efforts to conserve water through new technologies, efficient water management

### Entry Guidelines:

Please provide a detailed description, not to exceed 500 words, of your company's products and services in one or more of the following areas: waste management; water management/reduction; emissions reduction; pollution prevention; species protection; environmental enhancement, etc. Include the duration of the project, its sustainability, year over year improvement, and how the activity or program assures continued success.

Third-party judges will examine the project description and evidence relative to the above criteria. Entries for the **Eagle Ford Excellence Award for Environmental Stewardship** should be accompanied by supporting documentation such as testimonials, project descriptions, case studies, photographs and published articles. Supporting materials should be collated, attached and submitted via email along with the entry form.
