

**STOPPING ADANI COAL IS
THE FIGHT OF OUR TIMES**

WHY DO WE NEED TO GO ALL IN TO **#STOPADANI?**

COAL KILLS

The mining, transport, and burning of coal kills people.
The world is moving on.

CAN'T TRUST ADANI

Adani has a history of shonky behaviour that has wrecked communities and the environment.

WRECKS OUR CLIMATE

Burning more coal will lead to more extreme weather - like bushfires and storms - as well as bleaching of the Great Barrier Reef.

TRASHES INDIGENOUS RIGHTS

Adani's project will destroy the ancestral lands, water, and cultures of Indigenous peoples in the region.

ROBS OUR WATER

Adani will draw billions of litres from precious water basins, for free, threatening farmers and groundwater.
