June 12, 2019

## **Statement on Proposed New Rent Laws**

After decades of weakening tenants' rights, the State Senate and the Assembly have agreed on a proposal that reverses the injustices caused by the tight grip of the real estate industry on rent regulations. The Stuyvesant Town–Peter Cooper Village Tenants Association is proud to have fought the good fight all these years and to have participated as a member of Housing Justice for All, the upstate-downstate coalition that worked so hard to achieve the passage of these new pro-tenant laws. The bills will bring immediate relief as well as stability to our community. With a vote by the legislature and the governor's signature, rent regulation is here to stay. The TA thanks State Senator Brad Hoylman and Assembly Member Harvey Epstein for their incredible support and effort in bringing about a win for tenants.
