#RefugeNOW: No Fear, No War, No Hate

This is an emergency call for solidarity among working people, students, social justice activists, and community members. ***We must say NO to fear, division, and war!*** We must not be silent while media and political figures engage in dangerous rhetoric about closing our borders to Syrian refugees, shutting down mosques, creating databases or ID cards for Muslim Americans, applying religious tests for entry into the US, or other political stunts designed to incite suspicion and hatred.
