

SUSTAINABLE TRANSPORTATION

ACTION	PROGRESS HIGHLIGHTS	KEY NEXT STEPS
16 Drive more efficient vehicles	Slight increase in electric vehicle charging stations; continued alt fuel vehicle events; RTA purchases	Expand CNG & electric vehicle fleets and charging infrastructure; Research local supply, demand, and driving behavior
17 Expand carpooling & car sharing	Slight expansion of Zipcar	Continue planning for expansion of car sharing in Cleveland; explore possibility of citywide app for carpooling
18 Encourage anti-idling citywide	Limited outreach	Identify approaches for promoting & enforcing anti-idling
19 Increase the use of public transit	RTA ridership growth for four consecutive years; Tri-C increased ridership by 50% through incentives	Expand use of RTA Commuter Advantage Program; develop app for real-time info, etc.
20 Make biking & walking easier & safer	Completed 17 miles of bike infrastructure in 2014; Progress on towpath; NOACA funding for bike share	Implement Safe Routes to School; Launch bike share in 2016; Continue implementation of City Bikeway Implementation Plan
21 Create complete and green streets	Completed first complete and green streets (Fleet Ave, East 22nd St)	Complete streetscape guidelines, building off typology

WASTE REDUCTION & RESOURCE CONSERVATION

ACTION	PROGRESS HIGHLIGHTS	KEY NEXT STEPS
22 Encourage waste reduction by residents & businesses	Completing rollout of curbside recycling in 2015; Launched One Simple Act; Installed 70 downtown recycling bins; Successful Year of Zero Waste (2014)	Increased outreach for One Simple Act; Increase recycling in multifamily residences; Support more businesses to move toward zero waste
23 Increase deconstruction & recycling of demolished buildings	Completed deconstruction pilot and summarized impact	Build off deconstruction pilot; make recycling or reuse of construction and demolition debris the standard
24 Develop an integrated waste management plan for Cleveland	Limited leaf peak up beginning in 2015; increase in food waste to energy	More availability of commercial composting; Continue exploring opportunities for more integrated waste management

LAND USE & CLEAN WATER

ACTION	PROGRESS HIGHLIGHTS	KEY NEXT STEPS
25 Green Cleveland's codes to encourage sustainable development	Best Practices in Zoning symposium on 10/21/15 hosted by City & ULI	Planning Dept to continue trainings on form-based code; Green the zoning code by integrating best practices in form-based code
26 Rightsize the City's infrastructure	Road diets on strategic city streets; Re-Imagining Cleveland 3.0 completed in 2014	Prep for next Re-Imagining funding round with focus on strategy, data management, and operational efficiency
27 Develop & implement an urban tree plan	Tree Steward trainings; Tree Summit; Completing Cleveland Tree Plan in 2015; more tree plantings	Implement Cleveland Tree Plan; complete tree plantings for Great Lakes Restoration grant
28 Scale up the local food system	Completed 2014 Sustainable Foods Business Roadmap for Cuyahoga County and began implementation	Continue implementation Sustainable Foods Business Roadmap; increase institutional purchasing
29 Implement green infrastructure to capture stormwater	NEORS created a Green Infrastructure External Advisory Committee and funded 12 projects; Complete and green streets implementation	Implement NEORS green infrastructure projects and increase number of project proposals for future grant cycles;
30 Increase water conservation & efficiency	Cleveland Water Department's metering technology has resulted in over 10,000 fixed leaks	Cleveland 2030 District to develop water baseline; Cleveland Water to study leaks of distribution system

COMMUNITY ENGAGEMENT & PUBLIC HEALTH

ACTION	PROGRESS HIGHLIGHTS	KEY NEXT STEPS
31 Promote businesses striving to meet energy & carbon goals	Making progress in developing commission, following John Cleveland's 2014 Summit keynote	Launch commission and begin working on priority actions where private sector can lead in CAP implementation
32 Recognize neighborhood capacity to take climate action	Held 10 climate workshops; Funded 13 Cleveland Climate Action Fund projects; 20 Climate Ambassadors	Expand workshops / grants to more Cleveland neighborhoods; clarify and expand role of Climate Ambassadors
33 Build resiliency against the impacts of climate change	Cleveland joined the WHO Age Friendly Cities Network; Cleveland Div. of Water Pollution Control assessed impacts of climate on its operations	Submit plan to Kresge Fdn for Climate Resilience & Urban Opportunity Initiative; Cleveland Clinic & UH complete pilot for White House initiative on climate resilience in health care
