

Breakout Summary:

As the City of Cleveland updates its curbside recycling program, it is important we hear from our residents. During this breakout we provided status updates on the program evaluation and offered opportunities for participants to give input on what they would like to see in future waste reduction and recycling programs. While this breakout was primarily geared toward City of Cleveland residents, all were welcome to join, learn more, and share feedback.

*Presenter:*

- Kristin Hall, Director of Sustainability, City of Cleveland
