Day 2 Sustainable Cleveland Summit - Thursday, Oct 21st

9:30 AM – 10:30 AM EST

LEED for Cities and Communities: An Overview of Cleveland's Certification

An overview of the LEED for Cities certification platform and Cleveland's performance scores in each of the certification categories.

Presenters:

- David Abell, Senior Manager, Cities & Communities, [LEED for Cities at US Green Building Council](#)
- Jason Wood, Chief of Sustainability, [City of Cleveland - Mayor's Office of Sustainability](#)

Detailed Description:

"LEED for Cities and Communities provides a framework for cities to credibly track progress toward overall sustainability objectives, and allows for comparison by and among communities around the world. This session will provide an overview of the LEED for Cities certification platform, Cleveland's performance scores in each of the certification categories, and a review of how we compared to other certified cities.

This session is part of a three-part series on Cleveland's LEED for Cities certification and the Sustainable Cleveland Dashboard, which will explore our ongoing sustainability tracking and reporting efforts, and help collaboratively identify priority metrics to drive climate action."
