

ENGAGED PEOPLE at HOME, at WORK and in the COMMUNITY

Sustainable Cleveland's motto, "Together, we're building a thriving green city on a blue lake," emphasizes empowerment, cooperation, action, quality of life, and abundance. People, not programs, are the answer to true and lasting climate action in Cleveland. This means that a whole system, citizen-centered approach will be needed to align climate action with the assets, capacity and priorities of Cleveland residents and business owners.

Participate in the Annual Sustainability Summit.

Attend other sustainability events throughout the year.

Share Sustainable Cleveland Events and Actions through [Twitter](#) and [Facebook](#).

Tell your story! We are capturing the success stories of Clevelanders making a difference at home, at work and in the community. [Share your success story here!](#)
