

## CLEAN WATER in the COMMUNITY

---

Fresh water resources represent an invaluable local asset that has shaped Cleveland's identity, both in the way that the city has perceived itself and how it has been recognized outside the region. You can help keep our waterways fishable, swimmable and drinkable! Here are some tips that you can do in your community to help improve water quality and conservation. [Share your success story here!](#)

---

**Organize** a neighborhood [rain barrel workshop](#).

**Install** a [rain garden](#) in your neighborhood

**Organize** a beach or stream clean-up through [Adopt -A-Beach](#).

**Plan** a picnic or day trip to one of Cleveland Metroparks' [Lakefront parks](#) and connect with Lake Erie!
