Randolph Voller, PRESIDENT  
Jan Nichols, SECRETARY/TREASURER  
Arturo Velasquez, BOARD MEMBER

Greetings,

It's the mission of Sustainable Prosperity Incorporated [SPI] to provide a higher quality of life for all residents by solving issues such as affordable housing, sustainable energy, water reuse, the provision of clean drinking water, management of solid waste and wastewater, downtown revitalization, social and health welfare, and jobs that pay living wages.

To achieve these goals, SPI intends to create scalable programs and concepts such as "Good Cause / Good Investing" and pull together projects in communities that are broad-based and that unite vulnerable communities and local businesses with municipal, county, state, and federal entities as well as non-profit and private leadership to raise capital and focus investment in local and regional economies.

Our organization's goal is to provide visionary leadership to create and maintain sustainable and environmentally-sound growth in North Carolina and beyond by fostering vibrant, diverse, and economically-resilient communities.

Please contact us to revitalize your community.

Best Regards,

Randolph Voller  
President

G. Arturo Velasquez  
Vice-President

Jan Nichols  
Sec./Treasurer
