

# Good Money™ helps business members increase their eco efficiency.

Vancity is working hard to reduce our greenhouse gas emissions and save energy. We want to support our business members to do the same. That's why we offer the **Eco Efficiency business loan**.

## Are you looking for ways to make your business greener?

Reduce your organization's operating costs – while reducing your environmental footprint – with our **Eco Efficiency business loan**.

Do you want to save money by installing high performance lighting or equipment, upgrading your boiler with a cleaner more efficient one, or replacing your gas-guzzling vehicle?

Greening your business isn't just good for the environment. It's good for your business.

## Financing your green upgrades

To help you finance your energy improvements and start saving energy now, take advantage of our Vancity **Eco Efficiency business loan**, which offers:

- a preferred rate on your loan
- loans of up to \$250,000
- financing for up to 100% of your capital upgrades
- flexible repayment terms to help you manage cash flow

## Who is it for?

Vancity's Eco-Efficiency loan is available to businesses, not-for-profit organizations, housing co-operatives and property-managed strata.

## Ready to increase your eco efficiency and save money?
