Revenues

TCC is proud to receive support from hundreds of individual donors, and many grantmaking organizations. TCC receives most of its financial support through diverse sources, principally private grantmaking foundations and, for the first time in its history, a public grant through the State of Connecticut.

Expenses

Donations to TCC go right back into the LGBTQ community. In 2016 and 2017, TCC expanded its staffing to include more individuals focused on case management for LGBTQ people in need. TCC also launched its Young Adult Drop In program for homeless people, and invested in our community for CT's biggest Pride festival, Pride in the Park.
