## Washington State correctional employees are our friends and neighbors.

We support our correctional employees because they protect us. Our friends and neighbors working in corrections haven't received a raise in 7 years, and it's time for the legislature to do the right thing by funding their contract. Supporting correctional employees not only keeps our community safe, but it also helps local, small businesses thrive by pumping \$527 million into our state's economy. When we help each other we all benefit.

## Please thank these local, small businesses that support our correctional employees.
