

Healthcare workers are special people, we all know that. We see stories of our union front-line heroes on the news everyday it seems these days. They are the ones that run to help when others stay at home. It is no different in the dental industry and I could not be prouder of our Sunrise Dental group and I wanted to share it with you.

“What can we do? How can we help our Union Sisters and Brothers”?

That is what our Sunrise Dental offices asked us when this pandemic started. When we introduced the Sunrise Dental Emergency Network to them, we had 45 of our independently owned offices step up and say that they would stay open and service emergency dental patients. When we asked them to provide FREE Palliative care to those that have lost their jobs and are facing financial hardship, of course our group said they wouldn't have it any other way. And our unionized employees, the amazing people they are, come into work to take care of their patients when they need them. We are doing our part to keep the emergency rooms clear for those who are affected by this pandemic.

We really need your assistance in getting the word out to those we can and let them know if they have a dental emergency that Sunrise is open. I am sure you have received the press release and information that you can send out to your members from either Mike or Shannon. Thank you in advance for getting out our message. Remember this is a service that is available to your members and it is because of you that makes this possible!

I would also like to thank you for the years of support that you have given to Sunrise Dental, your union dental group. It has been our pleasure to serve your members with the highest quality care and service at a discounted union fee schedule. Out of love and care we have put together this package for you and your staff of things you may need. Please be safe and spread the word.

With much Love, Gratitude and Solidarity,

Abraham Ghorbanian, DDS, MS
