

VOTE YES FOR STRIKE AUTHORIZATION

TO WIN A STRONG CONTRACT!

UPS made \$4.9 billion last year. It's time for major improvements in our contract.

UPS Freight Teamsters United is bringing members together to fight for the contract we deserve.

Vote Yes in the Strike Authorization Vote to Tell UPS Freight that We Demand a Fair Contract.

The International Union is holding a strike authorization vote by electronic balloting. A YES vote will give our union more leverage at the bargaining table.

Voting Yes will also send a message that members will not accept givebacks or settle for a weak contract.

A YES vote does not mean there will be a strike. We will have the opportunity to vote on a contract offer from the company before the contract expires on July 31.

A strike vote packet has been mailed to you.

Vote YES to tell UPS Freight that we will fight for a strong contract.

How the Electronic Strike Vote Works

A strike authorization ballot packet was mailed to every UPS Freight Teamster on May 15.

The strike authorization vote is being done electronically.

You were mailed a unique access code cast your ballot by phone or on the internet. No one will know how you voted.

If you do not receive your voting code by May 21, call your local union to request a replacement packet.

The deadline for voting is 8 p.m. on June 3. The vote count will be on June 5 so the union is armed with more leverage when negotiations are held on June 6.
