Re: COVID-19 Emergency Hand Sanitizer

Dear Dave and Jay:

My name is Brian Peyton. I am the President and Principal Officer of Teamsters Local 322. We represent UPS employees. Recently UPS were designated Essential Services Workers. Their hard work and efforts are critical to our nation's unified efforts to combat COVID -19. This Health Crisis has made it difficult to purchase certain supplies.

Recently one of our Shop Stewards spoke with someone from your business. As I understand it, you are currently producing a sanitizing liquid. However, you do not have the necessary bottles to store and distribute the sanitizer. If we can source the appropriate bottles, would it be possible to purchase a large quantity from you? We are desperately trying to acquire supplies to protect those who are working to keep this country going.

Thank you.

Respectfully,

Brian Peyton
President
