

Local 355 Members United for a **Strong Pension**

An independent network of Local 355 members working together for pension improvements.

This March, Local 355 members were blindsided when our annual pension accrual was slashed to zero.

We work hard, and we deserve strong benefits—and the right to be informed when cuts are threatened.

Our local needs a Pension Bill of Rights to protect our pension fund, our right to know, and our retirement.
