Are you tired of losing solid grievances even when the contract is clearly on your side?

Attend this special workshop for concerned Teamsters and stewards and find out what you can do to put more muscle behind your grievance:

- ▶ Creative tactics to make management think twice before they violate the contract again
- ▶ Beating apathy and getting members behind your issue
- ▶ Getting results even when your business agent won't back you up

**Guest Speaker:** Dan Campbell, former Teamster business agent and UPS National Negotiating Committee member

This workshop is sponsored by rank-and-file Teamsters and Teamsters for a Democratic Union.

Our educational workshop is open to members who want to make our union work more effectively for the membership by enforcing our rights on the job and holding our union officials accountable to the members.
