To: ALL Teamster Local Unions Representing members at YRC Companies (including YRC Freight, Holland, New Penn and Reddaway)

From: Tyson Johnson, Co-Chairman  
Teamsters National Freight Industry Negotiating Committee (TNFINC)

Re: YRCW

Date: January 14, 2014

It is our understanding that YRC Terminal Managers have requested that members call their Local Unions and/or the Freight Division to ask for a "re-vote" of YRC's proposed extension agreement. Please be advised that there are no plans to revote the rejected extension. The proposed extension was voted down by an overwhelming majority of the membership in a democratically conducted ratification.

Although the IBT and Local Unions always want to hear from members regarding their employment and work site issues, this effort by YRC Terminal Managers is not the appropriate way to initiate further dialog.

It is our understanding that YRCW is assessing its situation in order to determine its next steps. The current agreement continues be in full force and effect and Teamster represented employees should be encouraged to perform their normal job duties and functions.
