

RANK-AND-FILE TEAMSTER PENSION MEETING

The Central States Pension Fund is leading a lobbying effort to get Congress to allow changes in pension law that may include cuts for the already retired. The current pension law, the 2006 Pension Protection Act, has a sunset clause for 2014.

Congress must act to either renew it or make changes. Teamsters—both retired and active—are organizing to defend our pensions and retirement security.

WE NEED TO FIGHT BACK

“Think your pension is safe because you’re retired? Think again. Congress has been attempting to undermine our pensions—young, old, even the retired—since 2005. Eventually they will pound us out of the middle class unless we push back loud and strong.”
