

ABF Teamsters United Against Concessions

- Protect Our Jobs & End Subcontracting
- Restore Wages & Vacation Time
- Defend Health Coverage & Pensions
- Organize in the Freight Industry
- Strengthen the Grievance Procedure

**The ABF contract expires in March 2018.
The time is now to make a plan of action.**

Teamsters United is forming a network of concerned members, stewards and officers nationwide to put words to action and be prepared to say No to Concessions and Yes to a fair contract for Freight Teamsters. The Hoffa administration isn't leading in freight—it's up to us.

Teamsters United Against Concessions is uniting all Teamsters to stand in solidarity for a good contract, to defend pensions, and for the future of our union.

“Trucking is the backbone of American commerce but we've lost the heart and soul of what it means to be union in our industry. To restore a sense of hope, and then our pride and power, we need a plan that starts with a campaign to win strong contracts and the will to enforce them.”

John Palmer

Teamster International Vice-President—Southern Region

Teamsters United Against Concessions is a national grassroots campaign of, by, and for Freight Teamsters. We are independent of the Hoffa administration and the IBT. We're Teamsters fighting for Teamsters.

ABF Teamsters United Against Concessions

No More Concessions

"The contract survey let us know ABF wants concessions. How does that get members fired up and confident that our union leadership is ready to fight for a good contract?"

We need our vacation restored and our benefits protected. Get us a real wage increase. It's pretty simple. Our negotiating committees need to stand with the members and show no sympathy for management's sob stories."

Troy Justus, Local 413
Columbus, OH

Standing United

"We're ready to win a good contract.

We printed T-shirts to show our solidarity. We've been promoting them on social media and shipping them to Teamsters all over the country.

ABF needs to know that members are united."

Brian Manns, Local 41
Kansas City, MO

Protect Teamster Jobs

"Purchase transportation and subcontracting of our work is out of control. ABF appears to want to reduce as much Teamster work as possible.

We need strong language to enforce and put an end to this cancer in our contract. There's no more important issue to address, this must be settled before moving on to other demands."

Frank Golden, Local 710
Chicago, Illinois

Get Organized to Build Power

"It's time for the members to take control. We're organizing locally and coordinating nationally to defeat givebacks and win improvements.

We saw how powerful the car haulers were when they stuck together, even with an out of touch negotiating committee. Now it's our turn."

Aaron West, Local 249
Pittsburgh, PA
