This November, Local 804 members can elect new leadership and save our union.

For the last three years, UPS has gotten its way. Our Executive Board has been in Hoffa's pocket. Members have been harassed, disciplined, and sold out in bargaining. It has to change,

Experience Matters is the only slate that has proven experience delivering for the members by:

- ▶ **Standing Up to UPS Management**
- ▶ **Protecting Members from Discipline** and Enforcing the Contract
- ▶ **Taking On Hoffa** & Hoffa Administration Officials
- ▶ **Uniting the Membership**, Not Playing Politics

This is our proven record, not the election-year rhetoric you'll hear from our opponents.

Come out this Sunday. Meet the slate and hear our vision. Share your ideas. Make plans with other members to build a winning campaign.
