**Informed Consent for Women and Girls Considering Abortion and a 48-Hour Waiting Period
(SB1222 - Beavers / HB0977 – Hill/Moody)**

Tennessee State House of Representatives, April 21, 2015

The Tennessee House of Representatives passed HB0977 by a vote of 79 - 18. This bill will require abortion facilities to provide accurate information about the development of the baby, alternatives and resources available to assist the mother, and possible physical and psychological risks of the abortion. It will also require a 48-hour waiting period to reduce coerced abortions and to allow time to carefully consider the information and resources provided by informed consent provisions.

State Representative	Vote
