

**Tennessee Right to Life**  
**SANCTITY OF LIFE CURRICULUM**  
**EVERYTHING IS WONDERFUL IN ITS OWN WAY**  
**Kindergarten - Week 2**

Dear Parents,

This week's lesson focused on how each thing that God created is unique and beautiful in its own way. Each leaf, each seashell, each rock is different; no two are exactly alike. God made each creation different and unique in its own way because He loves us. He made each person beautiful and special too. Continue to practice and discuss the memory verse which reminds us that God not only made each of us unique, but He knew us even before we were born. Also, continue to talk in your family discussions how each person is created by God for some special work. We heard the story of how young David was chosen by God to be the King of Israel, and we learned that because each person is special to God, we must care for one another with kindness and respect. Taking time to discuss this teaching whenever possible can have a tremendous impact on your student as he/she grows and faces a Culture that isn't always so accepting of unborn children or those with unique abilities.

This lesson includes a brochure called "**You Are Special**" which you can read to your child. It reinforces what we've learned about the wonderful way in which the unborn child grows and develops. Although we do not discuss abortion in this lesson, the brochure does mention it, and you will want to use your own discretion in deciding whether or not you want to discuss it with your child. There is, however, a brief quiz which would be a great way to reinforce the other information offered in this brochure. We encourage you to use it with your child.

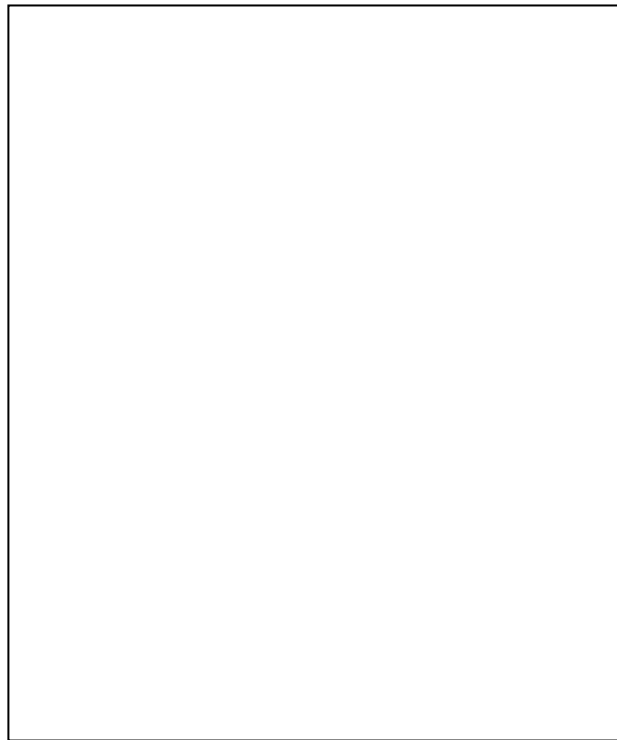

Finally, we ask you to take time with your child to create a thank you poem to God for all His wonderful gifts to us, using the activity below:

Thank you, Jesus  
for stars above.  
Thank you, Jesus  
for your\_\_\_\_\_.

For eyes and ears,  
touch, taste, and  
smells,  
Thank you, Jesus  
for rocks and \_\_\_\_\_.

For cats and dogs  
and buzzy bees  
Thank you, Jesus  
for tall, green \_\_\_\_.

The gift of life  
for my family  
And most of all for  
loving  
ME!

Here's a place to draw a picture of something for which you  
are thankful to God
