

Ultrasound or Baby picture

Our Memories

SANCTITY OF LIFE CURRICULUM
Kindergarten Lesson 1 Worksheet

Dear Parents,

In this lesson, we learned that God knew us even before we were born. Using images of unborn children, you were able to show how each of us grew according to God's perfect plan, even before we were born. In this way, you are laying the foundation for a deep respect for life before birth.

Even though we were each created in the same way, each of us is different and special. To reinforce this concept, you talked about the wonderful ways God has made each one different, stressing that those differences are part of God's plan, and should never be mocked or ridiculed. Now spend some time telling your child about your memories of him/her before birth, or before you adopted them, and some of the things that make them special to you. Please fill in these answers for your child; use the back of the sheet if needed. It would be wonderful to attach a copy of an ultrasound or baby picture of your child and then display it so you can continue to discuss their own life in the womb before they were born.

Before you were born, we remember:

The first time we heard your heartbeat

The first time we saw you

Some of the things we think are special about you

Some things I think are special about me (ask your child to tell you what they think makes them special).

MEMORY VERSE

"Before I formed you in your mother's womb, I knew you."

Jeremiah 1:5
