

We need each other in all the stages of life!

Grade 3 - Week 2
Take Home Form

Dear Student and Parent,

This week we learned that there are some things we can and cannot do at the different stages of life. We need help when we are babies, we need special care before we are born and often we need help when we are old, or sick. Through the stories of Moses being rescued from the river, the paralytic, Mary's visit to Elizabeth, and the Holy Family's escape into Egypt, we learned that every person needs help from others at some point in life.

God teaches us to care for one another through these limitations. The way we care for each other is one of the ways in which God reveals Himself to us. We learned that God has great love for each of us, in every stage of our lives, and we learned that we know people in all these various stages of life.

We read part of Horton Hears A Who and discussed how "A person's a person, no matter how small." We would like you to help your child observe other attributes a person might have and fill in the blanks below. See if you can think of a quality opposite of the one mentioned in each pair.

A person's a person no matter how kind.

A person's a person no matter how _____.

A person's a person no matter how healthy.

A person's a person no matter how _____.

A person's a person no matter how rich.

A person's a person no matter how _____.

A person's a person no matter how strong.

A person's a person no matter how _____.

A person's a person no matter how fast.

A person's a person no matter how _____.

As the week goes on, ask your child, once in a while, if they have thought of any other attributes that make a person a person, and add them to the back of this sheet. Then perhaps, try to include those persons in a prayer time with your child.
