

Sanctity of Life Curriculum  
**THE TRUTH WILL SET YOU FREE**

Grade 7 - Week 1  
Take Home

Dear Parents,

This week in class we talked about the deceptive language of abortion. The students were presented with three well-established pro-abortion slogans, and were then given the opportunity to refute them. We shined the light of truth on these slogans using biological and spiritual facts, along with our own common sense.

The first fact that we established is that **abortion is an act of violence that kills a baby**. Although this seventh grade lesson does not explain the exact methods used in the various types of abortion, we did learn the two ways that unborn babies are "aborted": chemical abortions and surgical abortions. Chemical abortions are drugs that kill the baby by suffocation, starvation or inducing premature labor. Surgical abortions are those that physically attack a baby's body.

As you will read in the brochure, *To Live ...or Let Die* some aborted babies have survived these procedures and have then been left to die. You may decide to share this brochure with your student, since we touched on the topic briefly in class.

Please use the enclosed brochure, *Language of Illusion: The Abortion Slogans*, to familiarize your family with some of the common deceptions used to make abortion acceptable in our society. Also spend some time with your student on the homework assignment for this week.

**Use what you learned from class and the enclosed brochure, *Language of Illusion*, to refute the following statements and slogans in your own words:**

**A fetus is not a person.**

**No one knows when life begins**

**Every woman has the right to control her own body**

**Every child a wanted child**

**Pro-child, pro-family, pro-choice**

**The Bible does not say anything about abortion.**

MEMORY VERSE:

**AND YOU SHALL KNOW THE TRUTH AND THE TRUTH SHALL SET YOU  
FREE**

**John 8:32**
