May 31, 2006

Dear Editor:

I am an eighth-grade student from Knoxville and I recently learned about the different methods of abortion. It was very sad to learn how unborn children are destroyed. Abortion is really an act of violence that kills a baby and wounds a mother. I was shocked to learn that abortion is legal for all nine months of pregnancy.

The unborn child is a human being just like I am. He has a heartbeat at 18 days and detectable brain waves at 45 days. At ten weeks he is fully formed and all he needs is food and time to grow.

Abortion takes the life of a very young human being. I hope and pray that within my lifetime, laws will be passed to protect the unborn child.

Sincerely,

This is a sample letter to a newspaper editor.
