COVID-19 shook the arts world to its core. Throughout the pandemic, Texans for Arts (TFA) has remained on the frontlines fighting for the resources our sector desperately needs; and now TFA needs you. Join [your org name or your name] and become a member of Texans for the Arts at any level - you receive a full-time team of advocates and government relations specialists dedicated to securing and growing vital public support for the arts that enrich our communities. #EveryMemberCounts

The 87th Texas Legislative Session marches onward and Texans for the Arts (TFA) amplifies your voice for public support for the arts in the Capitol every day. Texans for the Arts continues to lead the charge to maintain the \$10 million dollars for the Texas Commission on the Arts' Cultural District grant program. TFA is working to protect the Municipal Hotel Occupancy Tax and they are working to ensure that the arts are a much needed recipient of local and state funding as part of the American Rescue Plan. The list goes on and on - BUT TFA simply cannot do this critical work for the arts without the support of its members. Join the fight and become a member of Texans for the Arts. #EveryMemberCounts
www.texansforthearts.com/membership

Public funding for arts and creativity is a high - return investment that benefits every American in every city, town and rural community nationwide. The challenges of COVID-19 are far from behind us, but we are stronger together. I'm [or your org name] a Texans for the Arts member because the arts make us stronger - as individuals, families, communities, states & as a country. Will you join me [or "us" if you are an org]? #EveryMemberCounts
