**What San Francisco street/intersection would you choose for an epic street party and why?**

Hyde and Lombard, and we'd have a soapbox car race down the twisty part of Lombard because, why not

**Please list the 3 endorsements you are most proud of:**

Scott Wiener, David Chiu, Lateefah Simon

**What are the top three issues you will work on, and how will you implement solutions in a timely manner? (1250 character limit)**

I will immediately begin working toward creating 3,000 additional homeless shelter beds. SF has fewer shelter beds than in 2004 while the street homeless population has increased. There is now a 1000 person waitlist for shelter beds. These shelters can be a hybrid between traditional beds and navigation center beds. While we continue to struggle to house everyone who's experiencing homelessness, the least we can do is provide them with shelter.

We need to do a much better job holding our criminal justice system accountable, both for doing what we want them to do and for not doing what we don't want them to do. SF had the most property crime per capita of any major city in the US in 2017 despite the City spending over \$1bn on criminal justice. SFPD should adopt innovative and modern tools such as bait car stings using GPS technology that have worked successfully in thousands of cities nationwide. We also need to invest in solutions which will get folks out of the criminal justice system and help them rebuild their lives.

I would work to eliminate deaths and serious injuries on our roads, with a focus on infrastructure improvements, enforcement and education. As Supervisor, I will be the board's biggest champion of Vision Zero.

**What for-profit or non-profit boards do you serve on, including political organizations?**

Board member at California League of Conservation Voters, SPUR, and Generation Citizen Bay Area. Advisory board member at Golden State Opportunity. Previously served on the board of Jewish Community Relations Council.

**What local and state commissions and policy bodies have you served on -- currently or in the past?**

Currently a member of the BART Board of Directors (elected); appointed to Capitol Corridor Joint Powers Authority, Water Emergency Transportation Authority (the Ferries), and Metropolitan Transportation Commission; appointed SF Environment Commissioner, 2013-14

**Do you support San Francisco Employees' Retirement System (SFERS) fully divesting from fossil fuels within three years and holding SFERS accountable at the ballot if they do not divest? Yes**

**Have you signed up for CleanPowerSF? Yes, for SuperGreen service**

**If California Prop 10 passes in November, repealing Costa Hawkins Rental Housing Act, will you commit to implementing vacancy controls in San Francisco?**

**Would you commit to not funding any new police academy classes until the SFPD implements the Budget Analyst's recommendation to adopt a more efficient weekly staffing schedule? (Recommendation 2.2 here: [https://sfbos.org/sites/default/files/BA\\_Report\\_PA\\_of\\_San\\_Francisco\\_Police\\_Department\\_061218.pdf](https://sfbos.org/sites/default/files/BA_Report_PA_of_San_Francisco_Police_Department_061218.pdf))**

**Do you support congestion pricing for the downtown core?**

**In the wake of the controversy around SB 827, would you propose any rezoning or other policy changes to increase housing -- particularly affordable housing -- while protecting against displacement of current residents?**

As BART Director, I created policy to deliver 20,000+ new homes - over 35% of which will be affordable - in the immediate vicinity of BART stations. I am also leading the efforts, with Asm David Chiu, to significantly increase the speed and number of units that will be built around BART stations with the hoped-for-passage of AB2923 later this year. Not only would AB2923 set new standards around inclusionary zoning, mandating 35% affordable system-wide, it also breaks new ground in state law with regards to its strong anti-displacement provisions, and requires BART to develop a strategy to prioritize essential workers for occupancy of the developments on BART land.

As an MTC Commissioner, I have worked closely with Jane Kim to lead regional efforts to incentivize cities to build new affordable housing, preserve existing affordable housing, and expand the tenant protections that are available to tenants in San Francisco to tenants across the region.

I have also been an active participant in the initial planning stages for a region-wide affordable housing bond revenue measure that would be the first of its kind in the state.

As Supervisor, I will work to deliver more affordable housing in San Francisco and across the region and spread strong tenant protections region-wide. I will also look to raise more money at the local and regional level, streamline the entitlement of affordable housing developments, and drive regulatory changes to reduce the cost of building affordable housing.

**Will you pledge to continue Jane Kim's precedent-setting affordable housing negotiations, specifically securing 40% in new large residential development?**

**Do you support the "Our City, Our Home" tax on gross receipts of businesses to fund homeless services?**

**Do you support the gross receipts tax on transportation network companies (TNCs) and other private transit vehicle services?**

**Did you support 2014's Prop G, the anti-speculation tax?**

**Is there anything else you want to tell us? (3000 character limit)**

I'm running for D2 Supervisor to fix a broken culture at City Hall. As someone who founded and ran a successful solar energy company and have served on regional transportation boards, I understand that good intentions matter less than good execution. We need to bring new and innovative tools to City Government to get it functioning better for those who rely on it most,

and start holding our big city departments accountable for delivering real outcomes for our communities and especially for San Francisco's most vulnerable. I would look forward to working with you, as Supervisor, to deliver a government that every San Franciscan can count on to help them thrive.

As Supervisor, I would work towards implementing the next generation of congestion pricing. Instead of a traditional model, where drivers pay a fixed fee for driving downtown during the day regardless of how many miles they drive downtown or how many passengers they have, I believe we should implement downtown congestion pricing but charge based on how many miles are driven downtown during the day, and how many passengers are in the car. For instance, a TNC driver who is driving around during the morning rush hour without a ride should be charged more than a family who is carpooling in to work/school.

I support driving market rate developers to deliver as much affordable housing as possible on a project-by-project basis and admire the work done by Supervisors before me to make that happen.

I support a more efficient staffing schedule for SFPD, and would work as Supervisor to implement that staffing schedule.
