What San Francisco street/intersection would you choose for an epic street party and why?

That would all depend on how epic and if the community in which the party would be held is in agreement.

Please list the 3 endorsements you are most proud of:

Three endorsements that I am most proud of is from my family, some of the residents of District 10 and some police officer friends.

What are the top three issues you will work on, and how will you implement solutions in a timely manner? (1250 character limit)

Affordable Housing, Homelessness, and Women Rights for Health Care and Reproductive Right: One of my strategies to make sure that I am serving the residents of District 10 is to form a Supervisor's subcommittee made up of 2 people from each of these categories: homeowner, low-income resident, youth, business owner, and law enforcement. They will work with me to ensure that I am paying close attention to the needs of each part of District 10, which is one of the largest and most diverse districts in the city. With the help of the sub-committee I will be able to work with the community and developers to make sure that people are able to live in this city as well as continuing to have mix-use neighborhoods. It is important that even though we need more housing we also do not want everyone living in closets sort of speak. Making sure that all units are livable for families is important. Making sure that there is open space for children to be able to go outside and play is also important and I believe in for that is something that I used to do as a child. Making sure that women rights are their rights and not others speaking for us.

What for-profit or non-profit boards do you serve on, including political organizations?

Community Awareness Resources Entity, Chief Scott African American Advisory Board, Captain Ford Community Police Advisory Board, Friends of Jackson Park

What local and state commissions and policy bodies have you served on -- currently or in the past?

I used to be the president of the Potrero Terrace Tenants Association

Do you support full comprehensive testing (rather than scanning) with independent oversight of all of the Hunters Point Shipyard Superfund Site, including parcels already transferred and adjacent areas? Yes

Do you support the EPA and Navy's plan to maintain radioactive and toxic waste capped at the San Francisco Bay waterfront at the Shipyard? No

Summarize the issues of housing affordability and tenant displacement that are unique to District 10, and the solutions you've identified to address them.

Holding those that are in office accountable when making decisions to allow developers to come in and build in our city with out including true affordable housing in their buildings. Housing so that teachers, janitors, fast food workers can afford to live in the same city in which they work. Working with the tech companies that are already here to buy parcels of land that are strictly for true affordable and low income affordable housing. Housing for all across the board and keeping the rent controlled buildings rent controlled.

Do you support San Francisco Employees' Retirement System (SFERS) fully divesting from fossil fuels within three years and holding SFERS accountable at the ballot if they do not divest? Yes

Have you signed up for CleanPowerSF? Yes, for Green service

If California Prop 10 passes in November, repealing Costa Hawkins Rental Housing Act, will you commit to implementing vacancy controls in San Francisco? Yes

Would you commit to not funding any new police academy classes until the SFPD implements the Budget Analyst's recommendation to adopt a more efficient weekly staffing schedule? (Recommendation 2.2 here: https://sfbos.org/sites/default/files/BA_Report_PA_of_San_Francisco_Police_Department_061218.pdf) Yes

Do you support congestion pricing for the downtown core? Yes

In the wake of the controversy around SB 827, would you propose any rezoning or other policy changes to increase housing -- particularly affordable housing -- while protecting against displacement of current residents?

I always want to make sure that any decision that I make is the correct decision. This would have to be something that I would have to talk to those that know about the controversy and why there is one. I would also have to speak with people that this would effect as well as look at the fine print as well as make sure that if I help make the decision which ever way that it benefits those that are current residents as well as future residents.

Will you pledge to continue Jane Kim's precedent-setting affordable housing negotiations, specifically securing 40% in new large residential development? I have to sit down with some of your representatives to discuss this to make sure that I am making the right decision.

Do you support the "Our City, Our Home" tax on gross receipts of businesses to fund homeless services? Yes

Do you support the gross receipts tax on transportation network companies (TNCs) and other private transit vehicle services? Yes

Is there anything else you want to tell us? (3000 character limit)

In the previous part of who do you support I checked all of the unranked boxes. I can not endorse because not in those districts and I do not know all of the candidates. I also did not pick anyone for college board and BART board because I do not know all of the candidates. I am not a politician and I am not trying to get into politics per say to keep moving up the ladder. I just want to speak for those of us on the ground. I am definitely not a yes woman and I stand up for what is right. I do not have a long list of endorsements and that is ok for I am working for the residents of District 10 and hopefully will be able to work with the other Supervisors to make things right in San Francisco together. I am an Emerge graduate class of 2017, have my GED, have my B.A. in Human Service Management, working on my Masters in Public Administration (5 classes left), I have been clean and sober for 9 and a half years, was homeless for couple of years. I am a mother of 8 and grandmother of 13. I would like to work with you to make some of the decisions that I spoke about in my answers. I am going to have an open door policy and my personal phone number is on my website. I just ask that if a person is going to fuss at me please wait until daylight. I have a lot to learn and a lot to teach and together we can get so many things done while I am in office. I make no promises because I do not know everything that I can do in office. I do promise nit to be like other politicians and forget about the people.
