What San Francisco street/intersection would you choose for an epic street party and why?
23rd Ave & Taraval; that's where McCoppin Square is located, and it's central to one of my district's many communities, with plenty of surrounding small businesses, and it's hosted neighborhood parties in the past. It would either be there or somewhere in Golden Gate Park.

Please list the 3 endorsements you are most proud of:
I've been endorsed by my fellow D4 candidate, Mike Murphy, and I've endorsed him. I'm proud that we both put the cause ahead of our political egos. At this time, I have yet to be endorsed officially by any other organizations.

What are the top three issues you will work on, and how will you implement solutions in a timely manner? (1250 character limit)
My top two issues are the housing affordability crisis and homelessness, with a 3-way tie for my third: increasing resources for education equitably, promoting small businesses over large corporations and chain stores, and increasing the reach, frequency, and reliability of public transit. To help the homeless, I intend to increase the number of shelters and caretakers since the reality of the situation is a lack of beds for the thousands of homeless; the answer is not criminalization of the homeless. They need care, not imprisonment. For housing, in the short term, we need to increase the amount of available below market rate housing and expand rent control until we can eliminate the practices like property speculation and deliberate vacancy that have artificially inflated costs to the problem levels of today.

What for-profit or non-profit boards do you serve on, including political organizations?
I do not serve on any boards, but I am an active and voting member of the San Francisco Berniecrats and the Harvey Milk LGBTQ Democratic Club, as well as an observing attendee of several other community and political organizations.

What local and state commissions and policy bodies have you served on -- currently or in the past?
I have not served on any local or state commissions or policy bodies at any point in time.

Do you support San Francisco Employees' Retirement System (SFERS) fully divesting from fossil fuels within three years and holding SFERS accountable at the ballot if they do not divest? Yes

Have you signed up for CleanPowerSF?

If California Prop 10 passes in November, repealing Costa Hawkins Rental Housing Act, will you commit to implementing vacancy controls in San Francisco? Yes
Would you commit to not funding any new police academy classes until the SFPD implements the Budget Analyst's recommendation to adopt a more efficient weekly staffing schedule? Do you support congestion pricing for the downtown core?

In the wake of the controversy around SB 827, would you propose any rezoning or other policy changes to increase housing -- particularly affordable housing -- while protecting against displacement of current residents? The problem with SB 827 was its failure to actually increase affordable housing for the low and lower middle income levels, rezoning huge swaths of San Francisco while blind to the displacement it would cause. I do support some amount of rezoning, but placing priority on preventing displacement and creating below market rate housing while increasing density.

Will you pledge to continue Jane Kim's precedent-setting affordable housing negotiations, specifically securing 40% in new large residential development? Yes

Do you support the "Our City, Our Home" tax on gross receipts of businesses to fund homeless services? Yes

Is there anything else you want to tell us?  (3000 character limit)  
I would like to add some details behind my previous answers.

I have not yet signed up for CleanPowerSF, but I have learned about the program within the past few months and have been actively discussing signing up with my fellow tenants.

I support the Budget Analyst's recommendation to adopt a weekly staffing schedule, but I'm
not convinced defunding the police academy is the most productive course of action.

I understand the need for congestion pricing, but I believe there are less regressive solutions available. I might be more willing to support the idea if there were exemptions for those of low and lower-middle income, though I still have reservations on how this would impact those displaced out of the city and out of reach of public transit.

Stated support for Board of Education, Community College Board, and BART Board is not exhaustive due to the limited candidate information currently available.

Stated support for 2016 Board of Supervisors candidates is retrospective since I did not publicly support Supervisor candidates in that election.

Although I was not registered to vote in San Francisco in 2014, I would support an anti-speculation tax currently and in office.
