Board of Education

Three seats are open on the 7-member school board and we’ve endorsed these candidates who’ve shown a commitment to SFUSD students and families.

**ALISON COLLINS**
She’s been a teacher and District staffer, and is now a parent organizer. A parent of biracial twins, Alison pushes back on false narratives about public education, has organized against charter co-location, and worked for modern, inclusive reading lists.

**GABRIELA LOPEZ**
She is a bilingual teacher at Flynn Elementary in the Mission and a volunteer teacher at San Quentin. As a child of Mexican immigrants she understands the need for language support for newcomer families. If elected, she would be the first Latina on the BOE in 20 years!

**FAAUNA MOLIGA**
He is an SF native and SFUSD alumni with a focus on mental health and wellness. He’ll bring the Board practical experience working in the district, a theoretical grounding in effective youth empowerment, and a genuine passionate personality.

Prop (1) Our City Our Home

Fund Homeless Housing and Services by Taxing Big Businesses

This proposition is stunningly progressive and spectacularly needed. It’s a small tax on corporations that will dramatically improve the lives of homeless San Franciscans.

The City has approximately 7,500 homeless residents on any given day, and over 20,000 San Franciscans experience homelessness each year...but there are only 1,300 adult shelter beds, with 1,100+ people on the waitlist.

Prop C only applies to corporations bringing in more than $50 million a year, and it doesn’t touch that first $50 million. Above that, Prop C taxes them about half a penny per dollar, depending on the kind of business. It doesn’t affect most businesses, and retail stores get the lowest rate, so don’t let anyone scare you with B.S. that Prop C will make corner stores flee the City.

It’s gonna take this kind of bold legislation to impact homelessness. The League says HELL YES on Prop C!

Prop 10 > Repeal Costa-Hawkins!

Allow Rent Control Expansion

This fulfills a tenant advocate dream: it repeals Costa-Hawkins, an awful 1995 law that severely limits cities’ ability to pass rent control laws. So Prop 10 doesn’t directly expand rent control - but it gives us the ability to do so. If it passes, SF could decide to:

- Expand rent control to buildings built after 1979. *Are you concerned with what economists say about rent control? We have plenty to say about that in our online guide. Check it out!*
- Implement vacancy control to limit how much landlords can raise the rent when tenants move out.
- Limit rent increases when master tenants leave. So scummy landlords can’t jack up the rent when a renter dies and their surviving spouse isn’t on the lease.

Most California renters spend over 30 percent of their income on housing. For some it’s worse than that: a third are forking over 50% of their pay to their landlords! Prop 10 is the first step to reign in the most absurd rent hikes from the greediest landlords. We say Hell Yes on Prop 10!

Prop D > Two For One!

Prop D institutes two separate taxes: one on cannabis that doesn’t go into effect until 2021, and an “Amazon tax” on corporations which sell stuff to people in SF but don’t have physical locations here. That tax starts in 2019.

We love the “Amazon tax.” It’s unfair to local businesses that online retailers don’t have to pay taxes. The Supreme Court’s recent Wayfair decision opened the door to this, and we’re amped.

The cannabis one is trickier, because that industry is still getting its footing. But we like that the implementation is delayed and that the Board of Supes can adjust it. We’ll keep an eye on that as we get closer to 2021 - for now the ‘Amazon tax’ makes us excited to *vote yes on D*.

*Amazon actually already pays taxes here, but this is the easiest way we’ve found to explain it.*

But wait, there’s more! Check out THELEGACIES.ORG for everything else: from protecting the gas tax to protecting privacy, shoring up our crumbling seawall, funding arts and culture, and...Daylight Saving Time!
