# If Verizon Weren't Slashing Our Jobs, **MAYBE YOU'D HAVE YOUR FiOS BY NOW.**

---

When it received its franchise from New York City in 2008, Verizon promised FiOS would be available to every NYC resident by 2014. Now the company says it's completed its obligations.

But customers in many parts of New York City still can't get FiOS. Instead, Verizon has cut 8500 jobs in New York State and slashed its workforce in New York City by 37% over the last decade.

**Isn't it time for Verizon to stop cutting good, family-supporting jobs in NYC and start delivering FiOS to every New Yorker who wants it?**

In this contract year, we're fighting for our jobs—and to make sure every New Yorker can get the FiOS service they were promised. Please join the fight!
