

Get your #blEUpassport and #VoteVolt!

Thanks to a wonderful team effort, 250,000 “European passports” are currently being distributed in South West London.

To support our campaign, we need your help to make some noise on social media, too. If you want to help and spread our pro-European message, please follow these three easy steps:

1. Print this page, cut out the passport, and take a picture with it.
2. Post it on social media with the hashtag #blEUpassport and tell everyone why you love Europe or why you support this campaign.
3. Tag three friends and ask them to do the same.

Just got my #blEUpassport because I love Europe! @michael @sarah @tom, now it's your turn – get the passport at www.venzonforvolt.co.uk

For a Europe of democracy, opportunities, and rights

Dear fellow Londoner,

It is high time to **bring new energy into politics and shape our future together**, wouldn't you agree? Luckily, you finally have a chance to do that.

How? Well, the upcoming European elections are not a proxy vote for or against Brexit, **they are about the European Union and your future**. The Members of the European Parliament we elect will be able to represent us for the next five years. This means that your vote can shape our future and will have a real impact not only in the United Kingdom, but on Europe as a whole.

Populists and nationalists are on the rise, climate change is threatening our existence, continental disputes are putting into question our future while many in London still cannot afford rent. These are challenging times. Catchy slogans and the lack of real solutions have led us nowhere, **let's make a positive change**.

When I saw the direction that this country was taking, I chose to act, took responsibility. **Two years ago, as a result of Brexit, I founded Volt, the first pan-European progressive party**, now present all over the continent, supported by tens of thousands of citizens that are fighting every day for a better future, together.

As a European Parliamentarian from London, **I will be fighting not only to represent those people who think that the United Kingdom should remain part of Europe, but also to fix the flaws that the European Union has displayed**; those same flaws that have created a divide between the European project and millions of its citizens.

I have a plan. I will strive to democratize the European Union, increase economic opportunities for all and push for a just and sustainable society. Because real solutions should be at the centre of an election, find my proposals in detail at www.volteuropa.org/amsterdamdeclaration

By electing me as an Member of the European Parliament the United Kingdom will have **a voice that is truly European and that will work for all citizens and residents of London**, regardless of nationality.

If you feel that this cause is close to your heart, share this **#bLEUpassport** proudly on social media, which symbolises our mission.

#VoteVenzon. Vote for Europe, take charge of your future.

Best,

Andrea Venzon, the progressive independent candidate for London

Vote for Andrea right at the bottom of the ballot paper!
