PROTEST THE TORY PARTY CONFERENCE

You can be sure the Tories will continue with the lie that “austerity is over” for the third time running at their annual conference. It will be as great a lie this year as it has been in previous years.

We know that austerity is burning through working peoples lives inflicting poverty and hardship on millions of families. It has to stop. That’s why we are demonstrating outside the Tory party conference in Manchester 29th September. Once and for all this government must know austerity has to end.

The Tory party have reduced this country to one almighty mess. Poisonously divided amongst themselves, they should’ve left office in disgrace months ago.
