Courtroom, Interview Room, and Counter Mock-ups

The construction phase of the new Toronto courthouse included the review of full-scale mock-ups of a standard criminal courtroom, interview room, and public counter. Justice participants and ministry staff visited the NTC mock-ups, which are located in a Brampton warehouse, during the week of December 10, 2018.

The review of the mock-ups encompassed every element of the design, including: functionality, ergonomics, sightlines, millwork, accessibility, acoustics, flexibility and adjustability, safety and security, durability, and audio visual systems.

Architects were on hand to provide information. Very positive feedback was received overall, and justice participant input will help the design team to refine these courthouse spaces.

<< < SITE UPDATE > >>

- Construction on site is underway, with excavation for foundation and basement levels in progress
- The first crane will soon be installed, and foundation work will begin
- Daily street cleaning
- Dust control measures in place

NTC Site, December 2018-January 2019
