**TREE PRESERVATION SPECIFICATIONS**

Tree preservation is crucial to maintaining the aesthetics and value of the project area. Trees are a natural resource to be preserved and protected. This specification outlines the protection measures for trees during construction.

**GENERAL REQUIREMENTS**

1. No equipment shall be operated or parked under a tree nor any storage to be made within 3' of any tree canopy or directly against a tree trunk. No trees shall be excavated within 3' of a tree trunk.
2. In areas of construction, protective soil shall be provided to protect tree root systems from damage due to construction activity.
3. No surface insecticide or herbicide within 3' of a tree canopy shall be used.
4. All work shall be in accordance with the City of Los Angeles Tree Ordinance.
5. Trees shall have a 12" x 12" protective root zone.
6. No trees shall be pruned or trimmed during construction without city approval.
7. All work shall be coordinated with the City of Los Angeles Tree Ordinance.
8. All work shall be in accordance with the City of Los Angeles Tree Ordinance.

**TYPICAL WORK PROCEDURES**

All work around existing and transplanted trees shall be conducted in accordance with the following guidelines:

1. All work within a 3' root zone shall be conducted by the Recreation and Parks Department.
2. The extent of all work affecting any tree shall be reviewed with the Recreation and Parks Department prior to authorization.
3. All trees shall be pruned and trimmed prior to the start of construction.
4. Tree stumps and roots shall be removed at the start of construction and shredded, leaving the area clear of roots and stumps.
5. All trees to be removed shall be completely removed, leaving the area clear of roots and stumps.
6. All work within the root zone shall be conducted by the Recreation and Parks Department.
7. The area within the root zone shall be kept clear of all materials and equipment storage during construction.

**NOTES**

- Plans are for the convenience of the contractor only and do not establish site conditions.
- Site conditions shall be considered for all work prior to the start of construction.
- The contractor shall use standard landscaping techniques to protect and preserve all trees.
- Contact the Recreation and Parks Department for any questions regarding the protection of trees during construction.
