

Dear _____,

I know there will soon be a vote in caucus to remove Derek Sloan. Please vote against this motion. It is important to remember that he took steps to return the donation from Mr. Fromm the moment he realized what had happened. The party too took Mr. Fromm's money and allowed him to be a member. There is clearly a double standard, and this double standard is further aggravated by the fact that Sloan was given no chance to defend himself before Mr. O'Toole started the process to remove him.

This vote is not merely about whether Sloan will continue as a CPC MP, it is about common sense, due process, resisting mob rule, and about whether social conservatives like myself have a place in the party. If he is removed, it will cause me to seriously question whether the CPC is worthy of support in the next election.

Sincerely,
